Denni O #57 - Intense Speculation

[Call for Pricing](#)

Denni O is sucking cock and then tells her stud she is going to masturbate and for him to watch and jerk off while she does her business. She inserts one big dildo after another so that she can get off on stretching her big hole, then Denni uses a series of specula inside her pussy so that you can watch her cumming from the inside. Denni's bizarre pussy spreading devices are put into her pussy and they hold her cunt open nicely for the camera. She then fires up her super-powered vibrator and it makes her cunt dance on the inside, while the camera catches it all. This all becomes too much for her friend to watch and he uses her spread open hole to jerk his cum off into. A big load of sperm is ejected into the wide gaping hole and then the camera zooms inside to show you her sperm-laden pussyhole through the speculum.
